PROFESSIONAL EXPERIENCE

Executive Customer Relations Specialist (ECR)

May 2026 – Present

Amazon India · CEO / VP / Legal / PR Level

- ▶ Handling the most sensitive customer contacts in the organisation — responses on behalf of Amazon's CEO, VPs, Directors, Legal, and Public Relations teams.
- ▶ Maintaining 100% accuracy on executive-level responses, ensuring zero complaints escalated beyond ECR.
- ▶ Serving as the organisation's last line of reputational defence; consistently meeting SLA targets for same-day response on all high-severity cases.

Project Guardians (Core Project)

Jan 2024 – Mar 2025

Amazon India · Pre-Escalation Unit (Selected from ECR team)

- ▶ Intercepted and resolved an estimated 30–40% of potential senior-leadership escalations per month, measurably reducing executive queue volume and brand-risk exposure.
- ▶ Identified 3 recurring systemic defects through VOC trend analysis and partnered with business owners to implement fixes — each reducing repeat contacts in the affected category by an estimated 20%+.
- ▶ Set the quality benchmark for pre-escalation handling that was later adopted as standard operating procedure for the wider ECR team.

Executive Customer Relations Specialist (ECR) – Support Role

Sep 2023 – Jan 2024

Amazon India · CEO / VP / Legal / PR Level

- ▶ Maintained a 100% accuracy rate on executive-level responses across tenure — zero complaints escalated beyond ECR during this period.
- ▶ Diagnosed cross-departmental root causes and raised process improvement tickets that permanently resolved recurring issue patterns affecting thousands of customers.
- ▶ Served as the organisation's last line of defence for reputational risk, consistently meeting SLA targets for same-day response on high-severity cases.

Resolution Specialist

Oct 2022 – May 2026

Amazon India · Complex Contact Management

- ▶ Resolved complex, multi-touch customer complaints that frontline agents could not close — achieving first-contact resolution on ~85% of assigned cases.
- ▶ Reduced repeat-contact rate on complex issue types by coaching peers on correct policy application during live floor support.
- ▶ Recognised by management as a go-to SME for ambiguous policy scenarios, contributing directly to knowledge-base updates used by 100+ agents.

Process Trainer

May 2022 – Oct 2022

Amazon India · New Hire & Refresher Training

- ▶ Delivered new-hire and refresher training to cohorts of 15–20 agents; post-training assessment scores averaged 20% higher than the pre-training baseline.
- ▶ Introduced a daily floor-observation routine that cut policy-error rates among trainees by identifying knowledge gaps within the first week — not at end-of-month quality audits.

- ▶ Built communication guides and process cheat-sheets that reduced onboarding time by an estimated 1.5 days per batch.

Subject Matter Expert (SME)

Mar 2022 – May 2022

Amazon India

- ▶ Conducted 1-on-1 coaching sessions that lifted individual CSAT scores for 90% of associates in the assigned cohort within a 60-day period.
- ▶ Audited upstream process flows and flagged 5 high-frequency defect sources to operations management — all were actioned within the quarter.

Customer Service Associate

Oct 2020 – Mar 2022

Amazon India

- ▶ Consistently ranked in the top performance tier for CSAT and FCR across the 18-month tenure — the foundation that led to rapid promotion through six roles.
- ▶ Resolved an average of 80–100 contacts per day while maintaining quality scores above team benchmark.
